Docket No.: 08211/0200347-US0

(PATENT)

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Letters Patent of: Ols Hidri et al.

Patent No.: 7,071,670

Issued: July 4, 2006

For: GENERATING REFERENCE VOLTAGES

REQUEST FOR CERTIFICATE OF CORRECTION PURSUANT TO 37 CFR 1.323AND PATENT OFFICE MISTAKE (37 CFR 1.322)

Attention: Certificate of Correction Branch

Commissioner for Patents P.O. Box 1450

Alexandria, VA 22313-1450

Dear Sir

Upon reviewing the above-identified patent, Patentee noted several errors which should be corrected.

In the Claims:

Column 8, Line 13, In Claim 12, after "element" insert -- , --.

Column 8, Line 41, In Claim 18, delete "fist" and insert -- first --.

Enclosed please find marked up copies of pages 4 & 5 of the claims.

The errors were found in the application as filed by applicant. The errors now sought to be corrected are inadvertent typographical errors. The correction of which does not involve new matter or require reexamination. First Page Col. 2 (Attorney, Agent or Firm), Line 2, Delete "PC" and insert -- P.C. --.

Sheet 6 or 7 (Beside Box 620), Line 1, Delete "VDD" and insert -- VDD - -.

Transmitted herewith is a proposed Certificate of Correction effecting such amendment.

Patentee respectfully solicits the granting of the requested Certificate of Correction.

The Commissioner is authorized to charge any deficiency of up to \$300.00 or credit any excess in this fee to Deposit Account No. 04-0100. Payment of \$100.00 is enclosed herewith.

Dated: September 2, 2006

Respectfully submitted,

By

Flynn Barrison

UNITED STATES PATENT AND TRADEMARK OFFICE CERTIFICATE OF CORRECTION

Page _1_ of _1_

PATENT NO. 7.071.670 APPLICATION NO. : 10/695.921 ISSUE DATE July 4, 2006 INVENTOR(S) Ols Hidri et al.

It is certified that an error appears or errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

In the Application:

First Page Col. 2 (Attorney, Agent or Firm), Line 2, Delete "PC" and

insert -- P.C. --.

Sheet 6 or 7 (Beside Box 620), Line 1, Delete "VDD" and insert -- VDD --.

In the Claims:

Column 8, Line 13, In Claim 12, after "element" insert -- , --.

Column 8, Line 41, In Claim 18, delete "fist" and insert -- first --.

→ USPTO MAIN

Docket No.: 08211/0200347-US0

Application No. 10/695,921

- (Original) The device of claim 10, wherein
 the first branch current has a different manufacturing process variation
 dependence than the second branch current.
- (Original) The device of claim 10, wherein the second branch current is larger than the first branch current.
- 13. (Currently Amended) The device of claim 10, further comprising: means-for a fourth circuit that enables the draining from the intermediate node a drained current that approximately equals the first branch current, and has approximately the same manufacturing process variation dependence as the first branch current.
- (Currently Amended) A method comprising: forcing a first branch current through a resistive element to generate a resistive voltage drop;

forcing a second branch current through a junction device that includes a junction and has a negative temperature coefficient to generate a junction voltage drop, wherein the second branch current is different from the first branch current; [[and]]

adding the resistive voltage drop to the junction voltage drop to generate a reference voltage;

wherein the first branch current is arranged to transmit a first bias current through the resistive element, and wherein the second branch current is arranged to transmit a second bias current through the junction device for biasing the junction, without transmitting the second bias current through the resistive element, and wherein the first bias current reaches an intermediate node after the resistive element and before the junction device; and

extracting a drained current from the intermediate node with a third branch current.

Application No. 10/695,921

- (Original) The method of claim 14, wherein
 the first branch current has a different manufacturing process variation
 dependence than the second branch current.
- (Original) The method of claim 14, wherein the second branch current is larger than the first branch current.
- (Original) The method of claim 14, further comprising: combining the first branch current with a bias current to generate the second branch current.
- (Original) The method of claim 17, further comprising: controlling the bias current by the reference voltage.
- (Original) The method of claim 17, further comprising: draining at least some of the first branch current.
- (Original) The method of claim 19, wherein
 the drained current approximately equals the first branch current, and has approximately
 the same manufacturing process variation dependence as the first branch current.
